

DELIVERING NOW AND INTO THE FUTURE

Wish list for AEIOU Northern Brisbane

The Wantz Committee can help AEIOU establish a brand new centre to service families in the North of Brisbane. This new centre will increase AEIOU's capacity to deliver its early intervention service by an additional 30%. It will also future proof the delivery of the AEIOU program for the next four decades. Your support will leave a legacy for children attending AEIOU centres now and for those children yet to be born who will need support in the future.

Play to learn outdoor area

Play is an extremely important part of children's development and has been recognised as a human right for every child by the Office of the United Nations High Commissioner for Human Rights. Play has an integral role in the development of social, cognitive, symbolic and linguistic skills – all vital to the skills development under the evidence based AEIOU curriculum.

Soft fall kindy lawn	\$20,000
Shade sail large	\$18,000
Shade sail small	\$12,000
Playground	\$30,000
Motor skills equipment	\$20,000
Total play to learn project	\$100,000

Communication Essentials

One in 100 children are diagnosed with Autism Spectrum Disorder each year, but thousands do not have access to vital early intervention. The service offered by AEIOU Foundation is an evidence-based program with the primary objective to teach children vital communication, socialisation, cognitive development and independence skills, which helps each child to reach their full potential.

IPads to facilitate communication	\$16,000
Interactive Laptops (4)	\$4,000
Interactive Whiteboard and software (2)	\$16,000
